CMUD ERP — Accountant Requirement Checklist

Name: _____
Designation: _____
Date: _____

Tick one option for each feature.

AC01 — Student Bill Generation

Generate monthly, yearly, course, or other student bills with a unique bill number, amount, billing period, and payment deadline. Generate bills individually or for a selected batch.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC02 — Payment Entry

Record full or partial student payments with student ID, bill reference, amount, payment date, payment method, and transaction reference.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC03 — Payment Receipts and Vouchers

Generate and print numbered payment receipts and expense vouchers. Allow reprinting and keep a record of the original transaction.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC04 — Student Record and Payment Search

Find students and their payment records by **ID, name, phone, course, batch, admission date, month, or year**. Search transactions by bill number, receipt number, transaction reference, or payment date.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC05 — Payment Due Calculation

Automatically calculate outstanding balances from bills, payments, and approved adjustments. Show each student’s total charges, paid amount, and remaining dues.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC06 — Find Students by Payment Dues

Find students with unpaid, partly paid, cleared, or overdue bills. Filter by course, batch, due amount, and billing month/year. Generate a due list with student contact details.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC07 — Installments and Advance Payments

Record installment arrangements and advance payments. Apply payments to the appropriate student bills and show any remaining credit.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC08 — Monthly and Yearly Calculations

Calculate student charges, payments, and outstanding dues for a selected month or year. View totals for an individual student, course, batch, or the whole institute.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC09 — Expense Entry and Calculation

Record expenses with category, purpose, payee, amount, date, and payment method. Attach supporting documents and calculate expenses for a selected period.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC10 — Income and Expense Summary

Show weekly, monthly, and annual **gross collections before expenses**, total expenses, and the difference between collections and expenses. Display unpaid bills separately from money received.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC11 — Discounts, Waivers and Refunds

Record authorized discounts, fee waivers, and refunds with the amount, reason, and approval details. Update the student’s balance accordingly.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC12 — Mistake Correction and Recovery

Correct wrong amounts, duplicate entries, or payments assigned to the wrong student through authorized adjustments or reversals. Preserve the original entry, correction reason, and staff details.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC13 — CSV Report Generation

Download student payment records, due lists, bill lists, expenses, and income summaries as CSV files. Apply date, course, batch, or payment-method filters before downloading.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC14 — Online Payment Processing

Allow students to pay their bills online through selected payment options. Update bills and issue receipts after verified payment confirmation, while preventing duplicate payment entries.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC15 — Payment Method Selection

Select the payment options CMUD should accept. Gateway availability and integration details will be confirmed during implementation.

bKash

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

Nagad

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

Visa card

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

Mastercard

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

Bank transfer
Record the transfer reference and verify receipt of funds before marking the bill paid.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

Cash payment

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

Other payment option: _____
Please clarify "visit" here if you meant a separate payment option.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC16 — Payment Verification and Reconciliation

Track successful, pending, failed, and refunded online payments. Match system records with gateway or bank statements and identify missing or unmatched transactions.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC17 — Gateway Charges and Settlements

Show the amount paid by students, gateway charges, and the net amount received by CMUD. Track funds awaiting settlement and funds received.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AC18 — Financial Security and Access

Restrict financial entry, correction, refund, approval, and export permissions to authorized staff. Keep a history of financial changes and require additional approval where CMUD specifies.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

Feedback

1. Which features matter most?

Write the feature IDs or names in order of importance.
