CMUD ERP — Admin Department Requirement Checklist

Name: _____
Designation: _____
Date: _____

Tick one option for each feature.

AD01 — Student Admission

Register a student with personal details, contact information, qualifications, admission date, course, and batch. Assign a unique student ID.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD02 — Student Documents

Upload the student's photograph and required documents. Identify documents that have not yet been submitted.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD03 — Student Profile

View and update student information. Keep admission history, enrolled courses, batches, and administrative notes in one profile.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD04 — Student Search and Filters

Find students by **ID, name, phone number, course, batch, admission date, date range, admission month, and admission year**. Combine filters to prepare a specific student list.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD05 — Find Students by Payment Dues

Find students with **unpaid, partly paid, fully paid, or overdue bills**. Filter by due amount, course, batch, and billing month/year. Show contact numbers so Admin can communicate with students.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD06 — View Student Payment Information

View a student's fees, payments, outstanding balance, and payment history recorded by Accounts to answer enquiries and follow up on dues.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD07 — Student Communication and Follow-up

Prepare contact lists for payment reminders, missing documents, class notices, and certificate collection. Record student responses and the next follow-up date.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD08 — Course and Batch Management

Maintain course names, duration, batch numbers, start/end dates, and student lists for each batch.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD09 — Enrollment Changes

Handle repeat admissions, additional course enrollments, batch/course transfers, withdrawals, and cancellations. Keep previous records and reasons for changes.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD10 — Class Routines

Create, update, print, and share class routines with dates, times, courses, batches, teachers, and locations.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD11 — Manual Exam Completion

Manually record each student's exam-completion status for their course, including completion date and remarks. Find students by completed or pending status.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD12 — Certificate Coordination

View exam completion, payment clearance, and document status before forwarding students to Management for certificate processing. Track printing and delivery status to answer student enquiries.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD13 — Student Requests and Complaints

Record student requests or complaints, the responsible department, action taken, and whether the matter is resolved.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD14 — Reports, Printing and Export

Print admission forms and generate student lists, admission summaries, due lists, and completion lists. Export filtered results to Excel or PDF.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD15 — Existing Records and Duplicate Checks

Import existing student records and check for possible duplicates before registering a new student.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

AD16 — Access and Change History

Give Admin staff access according to assigned responsibilities. Keep a history of important changes to student records and exam-completion entries.

☐ Need now ☐ Later ☐ Not needed ☐ Discuss

Feedback

1. Which features matter most?

Write the feature IDs or names in order of importance.

2. What is missing, should change, or would you recommend?

3. Additional comments
